

## Transition Rollout Schedule – February 2018 to December 2018

In May 2016 the Universal Credit full service for all claimant types began to rollout nationally (beyond London).

The following schedule was updated in February 2018 due to changes being made to the DWP Jobcentre estate network and following the 2017 Autumn Budget.

This schedule sets out the latest planning assumptions for sites that will transition to the Universal Credit full service (including those already announced – see Annex A). The list is in alphabetical order by local authority mapped to Jobcentre sites.

Rollout of the Universal Credit full service is due to complete in December 2018. After the rollout process has completed, DWP will then begin moving all remaining existing benefit claimants to the Universal Credit full service starting in 2019.

### Please note

This schedule focuses on showing the main go live dates for respective Jobcentre areas and local authorities. We are aware that due to how postcode areas are linked to Jobcentres and local authorities there may be occasions where a small sample of postcodes go live at a different time than stated in this schedule. Those Jobcentres and local authorities affected will be notified as part of the implementation process. However it is not practical to be able to show all of these instances on a schedule of this nature.

Additionally some local authorities and Jobcentre areas appear more than once within the list. This is due to the fact that some local authorities do not have a Jobcentre within their boundary and the catchment area falls within the Jobcentre area of a neighbouring local authority.
