---

We are holding a **focus group** exploring **how gambling may impact on migrant communities in Leeds**. We would like to invite people with knowledge or experience of migration and gambling-related harm, for example people working with or representing different migrant groups.

Gambling-related harm includes debt, work/study problems, mental health issues and relationship-breakdown.

During the focus group we hope to hear your thoughts and experiences on how gambling can potentially affect vulnerable groups of people and what support is currently available.

The focus group will be led by researchers from the Social Care Workforce Research Unit at King's College London - Dr Stephanie Bramley and Ms Caroline Norrie.

The focus group will take place **1:00pm – 4.00pm** in the **Kramer Room**, located on the 1<sup>st</sup> Floor of **Leeds Town Hall, The Headrow, Leeds, LS1 3AD**.

A sandwich lunch will be provided, so please let us know of any dietary requirements when you book.

If you are unable to attend the focus group you can share your views and experiences via our **online survey**:
