

People Wanted for a Research Project on Anti-trafficking Charities

**Have you received help from an anti-trafficking charity?
We would like to interview you about what kind of help you received.**

This is part of a wider project researching what role religious charities play in anti-trafficking. We want to talk to people who have been helped by religious and non-religious charities.

Interviews can be conducted in languages other than English. Please let us know if there is an interpreter you prefer. Interviews will be anonymised, so that interviewees won't be identifiable.

For more information, please contact:

Dr Gwyneth Lonergan g.lonergan@sheffield.ac.uk
