Health Inclusion Day

Leeds 30th January 2019

London 11th February 2019

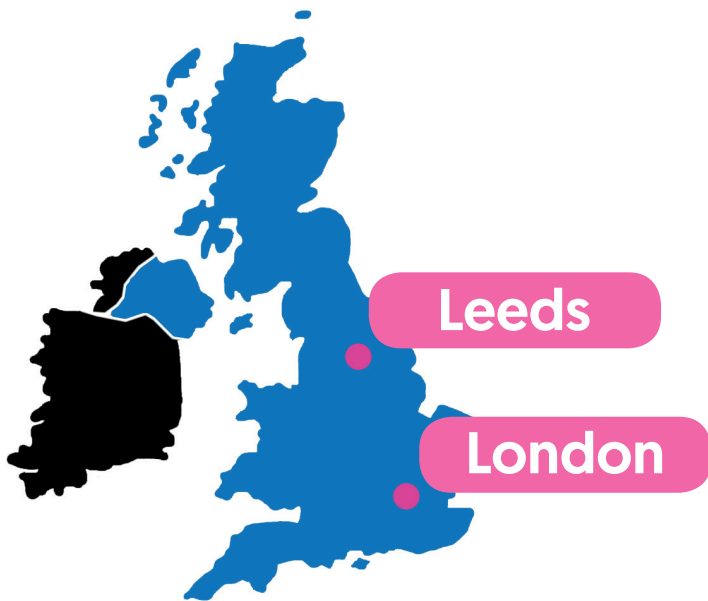

Leeds - 10.30am - 3.30pm

London - 11.00am - 4.00pm

Have your say!

CHANGE is working with NHS Business Services Authority to help make their services more accessible.

As part of this work we are running two events, one in Leeds and one in London.

The idea of these events is to bring people from marginalised communities together to share stories about the barriers to accessing good healthcare services.

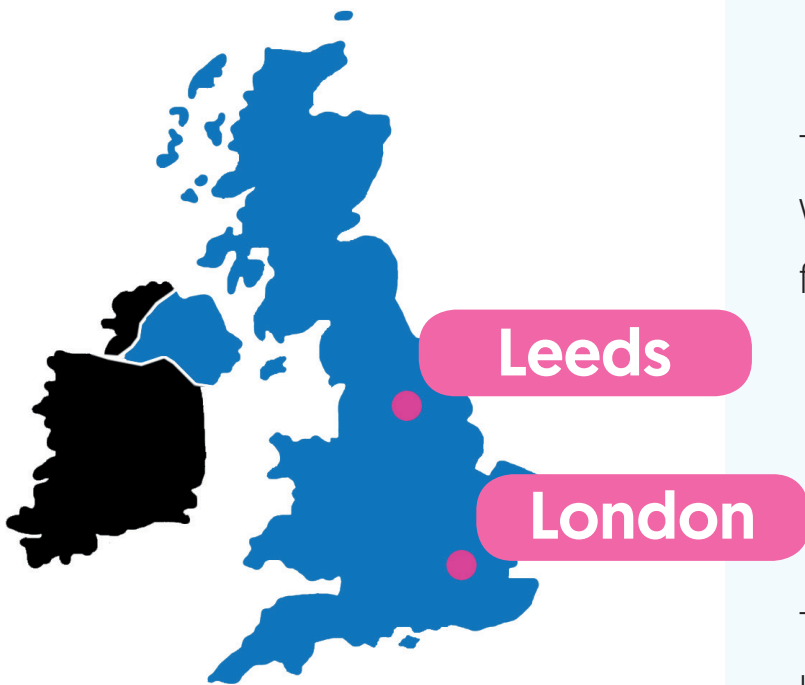

We will then look at possible solutions together.

If you would like to take part we'd love to hear from you!

We would like to share stories to build collective strength and look at practical steps for making change happen across health services.

The first event in Leeds will be on Wednesday 30th January and run from 10.30am to 3.30pm.

The second event in London will be on Monday 11th February and run from 11.00am to 4.00pm.
