

## Health Visiting & School Nursing

From 1 April 2019 school nursing and health visiting services will come together as one 0-19 team to support children, young people and families.

This new service will be known as the 0-19 Public Health Integrated Nursing Service, 0-19 PHINS for short, and will continue to improve how families and young people access health services in Leeds. It will be delivered by Leeds Community Healthcare NHS Trust. Some changes will happen quite quickly, and others will develop over time.

Leeds Community Healthcare NHS Trust has asked us to find out current knowledge of Health Visiting and School Nursing Services, so we know how best to raise awareness of the 0-19 Public Health Integrated Nursing Service to support more people.

Conversations will last no longer than 15 minutes, and it would be extremely beneficial to gather your response.

All information collected is strictly confidential and is completely anonymous. It does not make an impact on the care you may currently receive.

Thank you so much for your time.
