Leeds based groups with an
income under £20,000

This workshop will help your group to apply for a small grant of a few hundred pounds to around £20,000 to help run and expand your activities and services. We will identify how best to approach a range of funders e.g. local council funds, national lottery pots, trust funding and one-off funds. We will look at how best to answer key questions and how bids are assessed. Bring along any bids you need help with to use in the session. We can also give you e-mail feedback on your draft bids after the session.
