Making Migration Work

CONNECTING COMMUNITIES

Work that **brings together different parts of the community**, including refugees and migrants, to address loneliness, isolation and exclusion.

EQUALITY, ACCESS AND RIGHTS

Efforts to improve **equality of opportunity, better access to justice or rights-based support.**

SAFETY FOR ALL

Projects that support the **basic safety and wellbeing** of people in the community who may lack access to, and the support of, essential services and provision.

The Community Integration Awards aims to recognise and support the most promising work on integration and cohesion in the United Kingdom.

This year we want to recognise the inspirational ways in which diverse communities are coming together to support each other during the Covid-19 pandemic. Do you know a project or initiative in your area which has strengthened integration and brought different parts of the community together, including migrants and refugees, to respond to Covid-19?

If so, they could win **£1,000** cash, the chance to make a short promotional film about their work and a bespoke package of support to take their work to new heights.

To nominate, go to: **www.integrationawards.uk**

Nominations close: 9am Monday 30th November 2020
