

## **The Migrant Access Programme**

The Migrant Access Project (MAP) is led by the Council's Stronger and Safer Communities Migration Team and offers training to people from diverse communities through a weekly drop-in. The project offers free training, helping people develop their skills and knowledge so they can help others within their community. We welcome everyone who is interested in attending the drop-in. If you would like to know more about what MAP is, we would love to share what we do through an informal chat. To arrange this please contact Jenny via email: Jennifer.jennings@leeds.gov.uk
