

Participants Needed For Research

Exploring
professionals'
perspectives on the
mental health of adult
asylum seekers in the
times of a pandemic

What does the research involve?

The research involves online interviews and will take between 45 minutes to an hour. The interviews will be conducted on an online system called Collaborate, a safe system to use. It will be an opportunity for staff to share their experiences.

What is the inclusion criteria?
Staff must have worked with asylum seekers over the last couple of years, have experience and knowledge and be over 18.

Why should I take part?
It is an opportunity to explore how the pandemic has impacted asylum seekers' and to explore their mental health. It would be much appreciated if staff could take part in the study.

Contact information if willing to
take part
