Sharing Stories, Writing English

COURSE DESCRIPTION

This course gives learners the opportunity to share stories with one another about life as a newcomer to Leeds. We will share our stories in discussion, and also learn how to tell our stories in written English. Learners will be introduced to two kinds of writing in English: 1) free-writing and 2) improving writing. We will use images and brief statements designed to develop learners' 'free-writing' skills. We will discuss and improve our stories through re-writing exercises.
