Grant Funding to Support People Seeking Asylum in Leeds

1. Introduction

Leeds is proud to be a diverse city with a long history of welcome to those seeking sanctuary in our city. As a welcoming and compassionate city, Leeds City Council has a well-established structure to deliver the [Strategic, Inclusive and Coordinated Approach to Migration](#), developed in partnership with organisations and volunteers across the city. This strategy sets out our long-term strategic direction on migration which aims to ensure people who migrate to Leeds are able to establish their lives quickly and successfully. The continued joint working of statutory services, Leeds Migration Partnership, the third sector and volunteers are instrumental in achieving this ambition.

Leeds has been a City of Sanctuary for a number of years with a wide range of organisations already committed to the movement. In May 2023, Leeds City Council joined the [City of Sanctuary Local Authority Network](#), a movement of local councils who are working to create a culture of welcome, inclusion and empowerment for people seeking sanctuary. As an unawarded member the council are working toward the award to learn, share and embed good practice across the council and city. This demonstrates the councils ongoing commitment to take positive steps to build on our approach and strengthen our partnerships.

Key issues

Global events and ongoing changes to national immigration policy have impacted vulnerable individuals, families and support services at a local level. It is recognised people seeking asylum are significantly impacted by the introduction of recent UK government policy. These ongoing national policy changes have put significant pressures on both statutory and third sector organisations to respond to the changing nature of the asylum agenda, and to provide the support required to meet local need.

Refugee Council define a person seeking asylum as - 'A person who has left their country of origin and formally applied for asylum in another country but whose application has not yet been concluded. Wherever possible, we prefer to describe someone as a person seeking asylum as we feel that the term asylum seeker is dehumanising'.

Asylum Hotels

In recent years, the number of hotels to accommodate people seeking asylum has increased across the country, including Leeds. During the pandemic, the Home Office became unable to move asylum-seekers from initial to dispersed accommodation within the expected timescale of 3 to 4 weeks. The Home Office therefore established contingency accommodation; in Leeds these arrangements has been the repurposing of hotel sites. The local authority does not have the power to negotiate the decisions made by the Home Office and are not apportioned additional resources.

Initially contingency accommodation was considered to be a short-term solution, however, over time the number of asylum hotels in Leeds has increased. Asylum families are currently not residing in hotels in Leeds, the current cohort is male, however this could change in the future as seen in other parts of the country. Residents are accommodated on a full board basis; however, concerns have been raised locally and nationally regarding the wellbeing of people seeking asylum living in hotels. In addition, wellbeing concerns

have also been raised regarding individuals and families living in dispersed accommodation, due to the impact of the pandemic, the current cost of living crisis and increased isolation.

Asylum Claim Decisions

In March 2020, at the start of lockdown, the Home Office halted decisions on asylum applications. Whilst Home Office decisions later resumed in 2020, a backlog of people awaiting the outcome of their asylum application exists. In February 2023, the Government created the Streamlined Asylum Process, to address the backlog of asylum claims awaiting a decision on claims lodged before the Nationality and Borders Act 2022 came into force on 28 June 2022. This process of fast-tracking decisions was developed with the intention of clearing cases that are considered well founded, with a view to granting of protection status more quickly.

Legal Advice

It is well recognised there is a lack of free or low-cost immigration legal advice in the city. As a result, people seeking asylum are challenged to progress their asylum applications, which can lead to delays and increased complexity of cases. This can lead to people being unaware of their rights, increased fear, and potential risks of exploitation.

Newly Granted Refugees and 28 Day Move On

People who receive a positive outcome on their asylum claim are given 28 days to transition from asylum to mainstream support. The Streamlined Asylum Process is expected to generate a number of positive decisions, this is anticipated to increase pressures in accessing support to aid with move on.

Destitution

Organisations who support destitute asylum seekers to seek sustainable routes out of destitution, has seen an increase in the support needs as well as a lack of suitable accommodation provision.

Leeds City Council has recently received funding from the Home Office in relation to the asylum agenda. As a result, the council is able to offer one round of grant funding to the third sector to support people in Leeds who are going through the asylum process.
