

Engineering Vacancy

We have a rewarding opportunity for the suitable candidate to support the delivery of flood risk schemes, as well as actively contributing to the wider Leeds Flood Risk Management team.

Work with Leeds City Council, to assist in the implementation of Flood Risk Capital schemes. Help us deliver flood resilience in the city – this includes traditional civil engineering, as well as developing natural flood management.

Qualifications: Hold a HNC/HND or similar relevant qualification or can demonstrate relevant experience at a senior level.

Salary: £32,909 (to £34,723) per annum

Closing date: 3 May 2024 at 5pm
